1. Creative Pathways – Barrhead HA/Impact Arts

Creative Pathways (CPs) is an employability programme, which is a close collaboration between Barrhead Housing Association and Impact Arts which uses the power of arts and creativity to inspire and motivate young people in Barrhead. The session will give delegates the chance to hear more about how CPs ensures that young unemployed people from Barrhead are able to engage in a programme that is creative, influential, dynamic and productive. The programme uses a creative, entrepreneurial approach to increase skills that are relevant to employers and relevant to the current growth area in creative industries highlighted by the Scottish Government. Taking the form of full-time workshops over a 12 week period, professional artists lead varied creative activities for 16-24 year olds who are not in employment, education or training.

This included details about tenants' health, income, fuel costs, household size, ethnicity, languages and economic status. Findings from the 2017 survey highlighted that many families could not afford to pay for their children or teenagers to attend activities or clubs. The Association responded by setting up its 'Community Chest Fund' which offers small grants (up to £150) to any young person under the age of 25 living or attending school in Queens Cross HA's area of operation. Reidvale HA provides funding for both of these activities. So far in the last academic year 98 young people in local schools have completed the First Aid course, the Dynamic Youth Award or High 5 Awards. On top of this 18 young people from St Mungos completed a one-day training course to become peer educators, in order to teach their peers First Aid. Come along and hear more about this success story.

7. Creating a local park - Southside HA/SWAMP

Southside Housing Association has been working with SWAMP (South West Arts and Music Project) for approximately 9 months on creative and exciting youth engagement. With a new park on the horizon in Cardonald, Southside and the locally run Friends of the Halfway Community Park group were concerned about the potential for anti-social behaviour and disengagement from local young people to negatively affect the new space. SWAMP has been delivering 3 sessions per week in the local community flat. These sessions aim to involve young people in some aspects of the park design, hear about their issues and ideas for the area, help them to achieve their Dynamic Youth Awards, and eventually enable them to form a youth steering group for the area. Come along to this interactive session, to get a flavour of the type of work the young people have been involved in.
