

# **Democratic innovation:** **Involving citizens and communities** **in local decision making**

Oliver Escobar, University of Edinburgh  
GWSF Conference, June 2016

**WHAT  
WORKS**  
SCOTLAND

# Outline

- Why community participation?
- Policy context: a glass half full or half empty?
- Local democracy in Scotland
- International trends in participation
- Challenges in participation
- What works in participation?
- Making it happen

# Why community participation?

(Involve 2005)

- Addressing **complex problems** drawing on untapped knowledge, experience and perspectives
- Making **better policies** and ensuring effective implementation
- Improving public **service design and delivery**
- Building **legitimacy and trust** in public institutions
- Developing **citizens' skills, confidence and ambition**
- Enabling more **active citizens and communities**

# Policy context for community participation in local democracy

- Relaunch of the National Standards for Community Engagement (2016)
- Community Empowerment (Scotland) Act 2015
- Participatory Budgeting national programme (2014-2016)
- COSLA's Commission on Strengthening Local Democracy (2014)
- Parliamentary Local Government Committee (2013, 2014)
- National Planning Framework 3
- Christie Commission on Future Delivery of Public Services 2011
- Audits of Community Planning Partnerships (2011, 2013), Review of Community Planning (2012, 2016)
- Community Councils Short Life Working Group (2011)

# Community empowerment in Scotland

-

half full or half empty?

# local democracy in Scotland

# A 'silent crisis' of local democracy? (Bort et al 2012)

- Scotland has “the largest average population per basic unit of local government of any developed country”(Keating 2005)
- Average population **size of municipality**:
  - Finland=15,960; France= 1770; Germany= 7,080; Spain= 5.680; EU average= 5,630
  - Scotland= 163,200
- Alongside England, Scotland has some of the **lowest voter turnout** at local elections in the EU
- Ratio Elected Councillors / Citizens represented:
  - Finland= 1/500; France 1/125; Germany:1/400; Spain 1/700; UK= 1/2860
  - Scotland = 1/4270

# Participation in local decision-making in Scotland

- only **35% of Scottish citizens feel** part of how decisions affecting their community are made
- **77% would get more involved** in their community if it was easier to participate in decisions that affect it
- and **82% would like more say** in how local services are provided in their area.

Source: Ipsos MORI 2014

# Commission on Strengthening Local Democracy 2014:

- “50 years of **centralisation** has not tackled the biggest problems that Scotland faces
- For a country with Scotland’s wealth and strength, the level of **inequality** is intolerable, and has huge social and financial costs
- There is a link between the **absence of strong local democracy** and the prevalence of inequalities
- It is **communities** that **empower governments** at all levels, not governments that empower people”

# International trends in participation

# Evolving role of citizens: 2 stories can be told

## Story of decline

- Declining...
  - Voter **turnout** in elections
  - **Trust** in & **legitimacy** of traditional institutions of public life (e.g. government, media, parties, unions, community associations, etc)
  - **Social capital**: community 'ethos' & networks

(Dalton 2005; Putnam 2001)

## Story of progress

- What's happening is that **citizens are becoming**:
  - better educated, more knowledgeable and critical;
  - less deferential to traditional authority and elite-driven / hierarchical forms of governance;
  - dismissive of conventional channels and engaged in alternative mechanisms of political expression;
- The **myth of public apathy**

(Norris 2002; Castells 2012; Eliasoph 1998)

# Debunking the myth of apathy:

## Civic participation in Scotland

- Record-breaking participation in the **referendum**
- A growing, **vibrant civil society / third sector**: social enterprises, development trusts, housing associations, transition towns, etc
- **Civic participation on the rise: from 55% in 2009 to 61% in 2013** (Scottish Social Attitudes Survey 2013):
  - 48% engaged in active participation
  - 25% volunteered at least once
  - 7% volunteered 13 times or more

**Table 5.2: Civic participation in past 12 months**

	<b>2009</b>	<b>2013</b>
	%	%
Did nothing	45	39
Signed a petition	28	38
Give money to campaign/ organisation	13	22
Did something active	44	48
Don't know	*	*
<i>Sample size</i>	<i>1482</i>	<i>1497</i>

Note that percentages do not sum to 100% as respondents were able to choose more than one

Community  
participation and  
collective action  
are being reinvented

# But is all participation good?

- Paradox of **growing participation and growing inequalities** (Walker, McQuarrie & Lee 2015)
  - proliferation of traditional consultation and de-politicised forms of participation
- Inequalities in health, income, wealth, education... stemming from **inequalities of power and influence?**

unless **corrective measures** are taken  
“participation of all varieties will be skewed in favour of those with higher socioeconomic status and formal education”  
(Ryfe & Stalsburg 2012)

**In the last 3 months,  
have you participated in a public  
forum to discuss policy or  
community issues?**

# Stay standing if at that forum there was a reasonable...

- ...gender balance
- ...mix of personal and professional backgrounds
- ...range of perspectives and opinions
- ...age range (i.e. 3 generations)
- ...sense that most participants felt included and influential
- ...sense that most participants enjoyed it
- ... sense that their participation would have a clear impact

# Key challenges organising community participation in decision-making

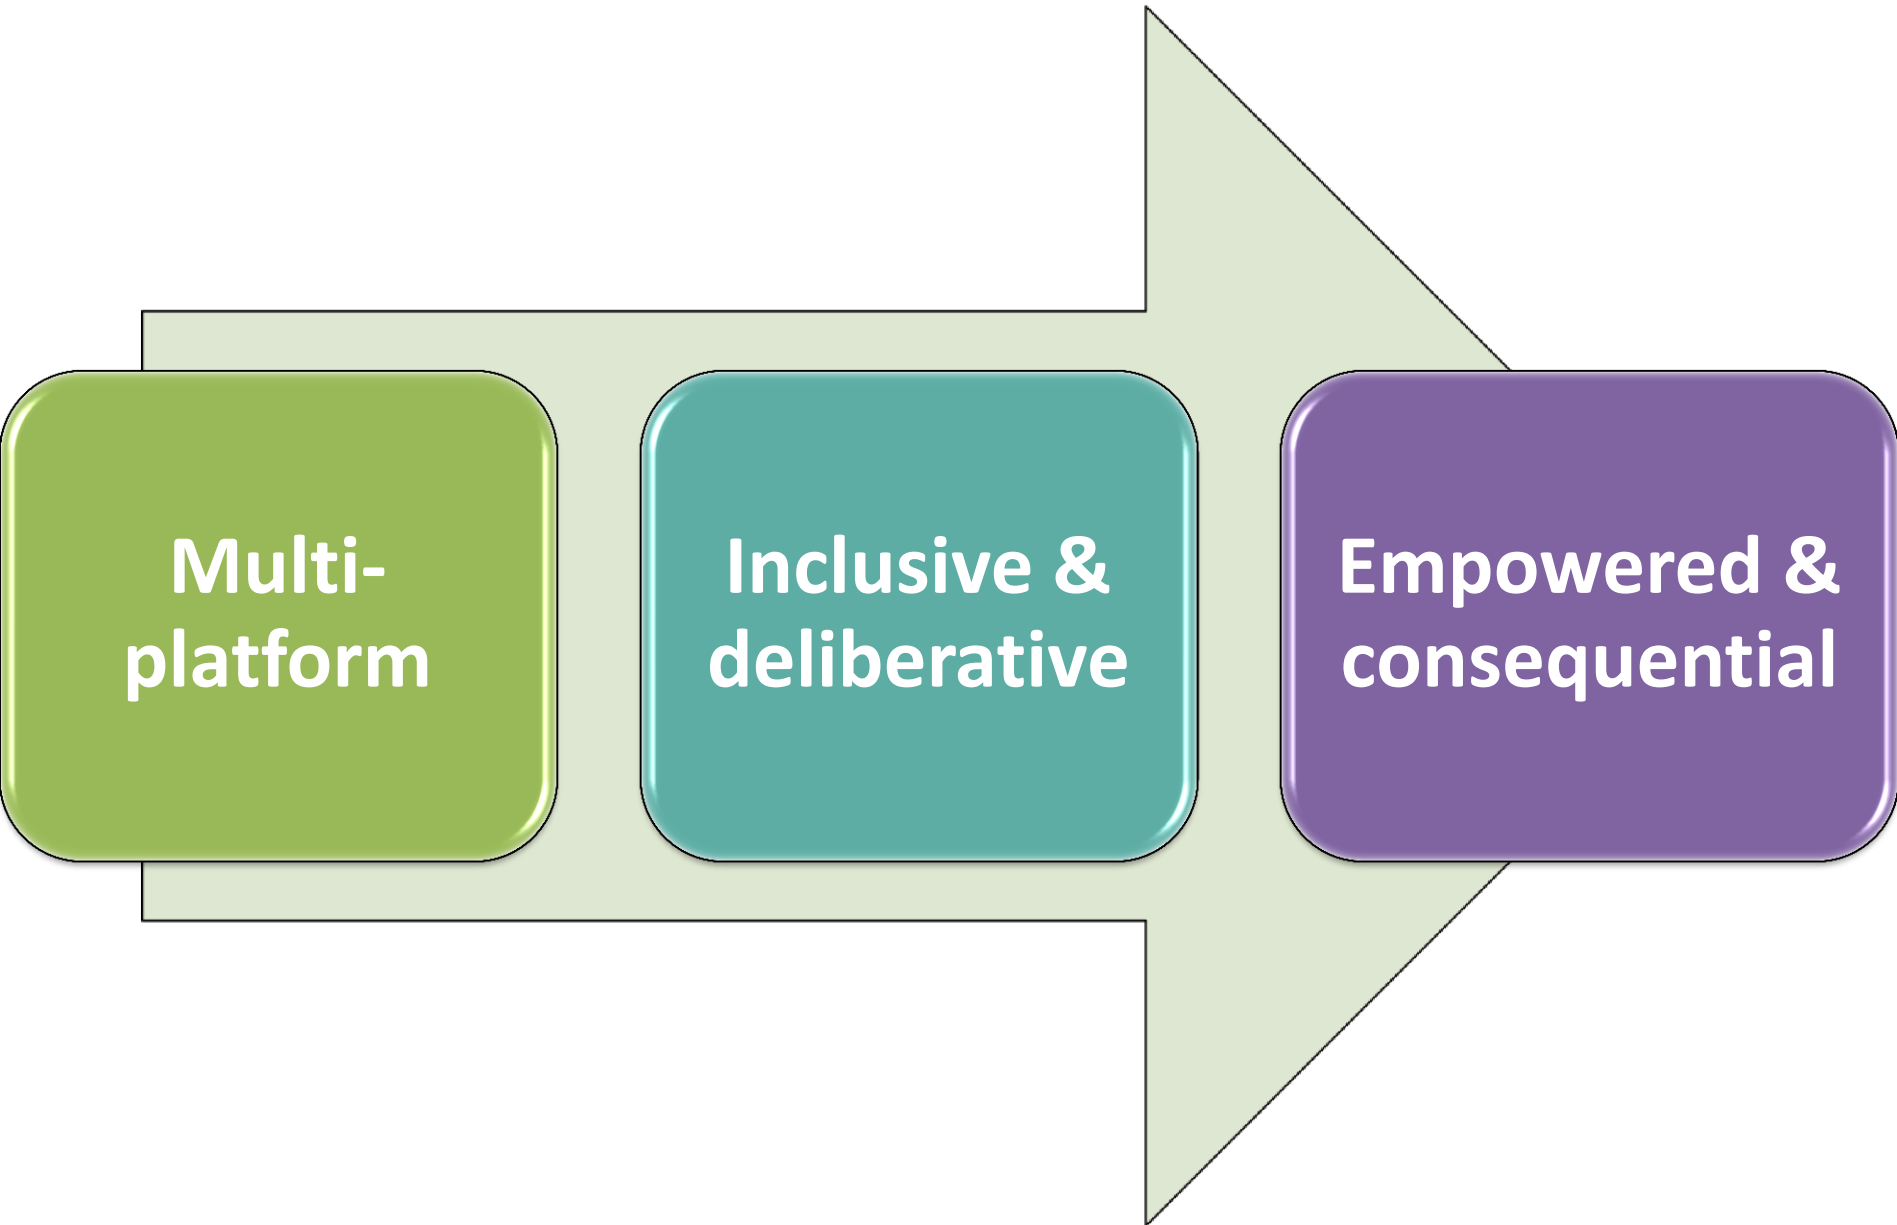

# What Works in community participation?

## Local innovations around the world

# 3 components of 'what works' in community participation

# Multi-platform: crowdsourcing

- Accommodating a variety of forms of participation:
  - online, face to face, combined
  - light-touch vs. intensive
  - The power of ‘crowdsourcing’: tapping into ‘the wisdom of the crowds’ (Surowiecki 2005)
- Examples:
  - Fix My Street  
[www.fixmystreet.com](http://www.fixmystreet.com)
  - MapLocal  
<https://maplocal.org.uk>
  - U-Report Uganda  
[www.ureport.ug](http://www.ureport.ug)

The screenshot shows the FixMyStreet website. At the top, the logo 'FixMyStreet' is displayed. Below it, the main heading reads 'Report, view, or discuss local problems' with a subtext '(like graffiti, fly tipping, broken paving slabs, or street lighting)'. A search bar prompts the user to 'Enter a nearby UK postcode, or street name and area:' with an example 'e.g. 'B2 4QA' or 'Tib St, Manchester'' and a 'GO' button. A location pin icon suggests '... or locate me automatically'. The page is divided into two main sections: 'How to report a problem' and 'Recently reported problems'. The 'How to report a problem' section lists four steps: 1. Enter a nearby UK postcode, or street name and area; 2. Locate the problem on a map of the area; 3. Enter details of the problem; 4. We send it to the council on your behalf. Below this, statistics are shown: 4,694 reports in past week, 7,230 fixed in past month, and 825,389 updates on reports. The 'Recently reported problems' section lists five items with timestamps and photos: 'Middle of road is dipping/subsiding Clarke Way (near 32)' at 18:08 today; 'Abandoned damaged wheelie bin on layby A259 King Offa Way' at 18:06 today; 'Car seat in road' at 18:03 today; 'Broken kerbstone' at 17:49 today; and 'Rubble left in road' at 17:46 today. At the bottom, it says 'The FixMyStreet App' and 'Powered by FixMyStreet Platform'.

**FixMyStreet**

Report, view, or discuss local problems  
(like graffiti, fly tipping, broken paving slabs, or street lighting)

Enter a nearby UK postcode, or street name and area:  
e.g. 'B2 4QA' or 'Tib St, Manchester' **GO**

... or locate me automatically

**How to report a problem**

- 1 Enter a nearby UK postcode, or street name and area
- 2 Locate the problem on a map of the area
- 3 Enter details of the problem
- 4 We send it to the council on your behalf

**4,694** reports in past week  
**7,230** fixed in past month  
**825,389** updates on reports

**Recently reported problems**

- Middle of road is dipping/subsiding Clarke Way (near 32)  
18:08 today
- Abandoned damaged wheelie bin on layby A259 King Offa Way  
18:06 today
- Car seat in road  
18:03 today
- Broken kerbstone  
17:49 today
- Rubble left in road  
17:46 today

The FixMyStreet App  
Powered by **FixMyStreet** Platform

# Inclusive AND deliberative

- **Inclusion and diversity** are crucial for meaningful, legitimate and effective participation
  - demographics AND perspectives
  - lowering barriers to participation
- **Public deliberation** is about:
  - learning about the issues
  - hearing & discussing different views
  - then, making informed decisions
- **Examples –‘mini-publics’:**
  - Citizens’ Juries on Wind Farm Development (Coldstream, Helensburgh, Aberfeldy)
  - Melbourne Citizens’ Panel on Local Finances

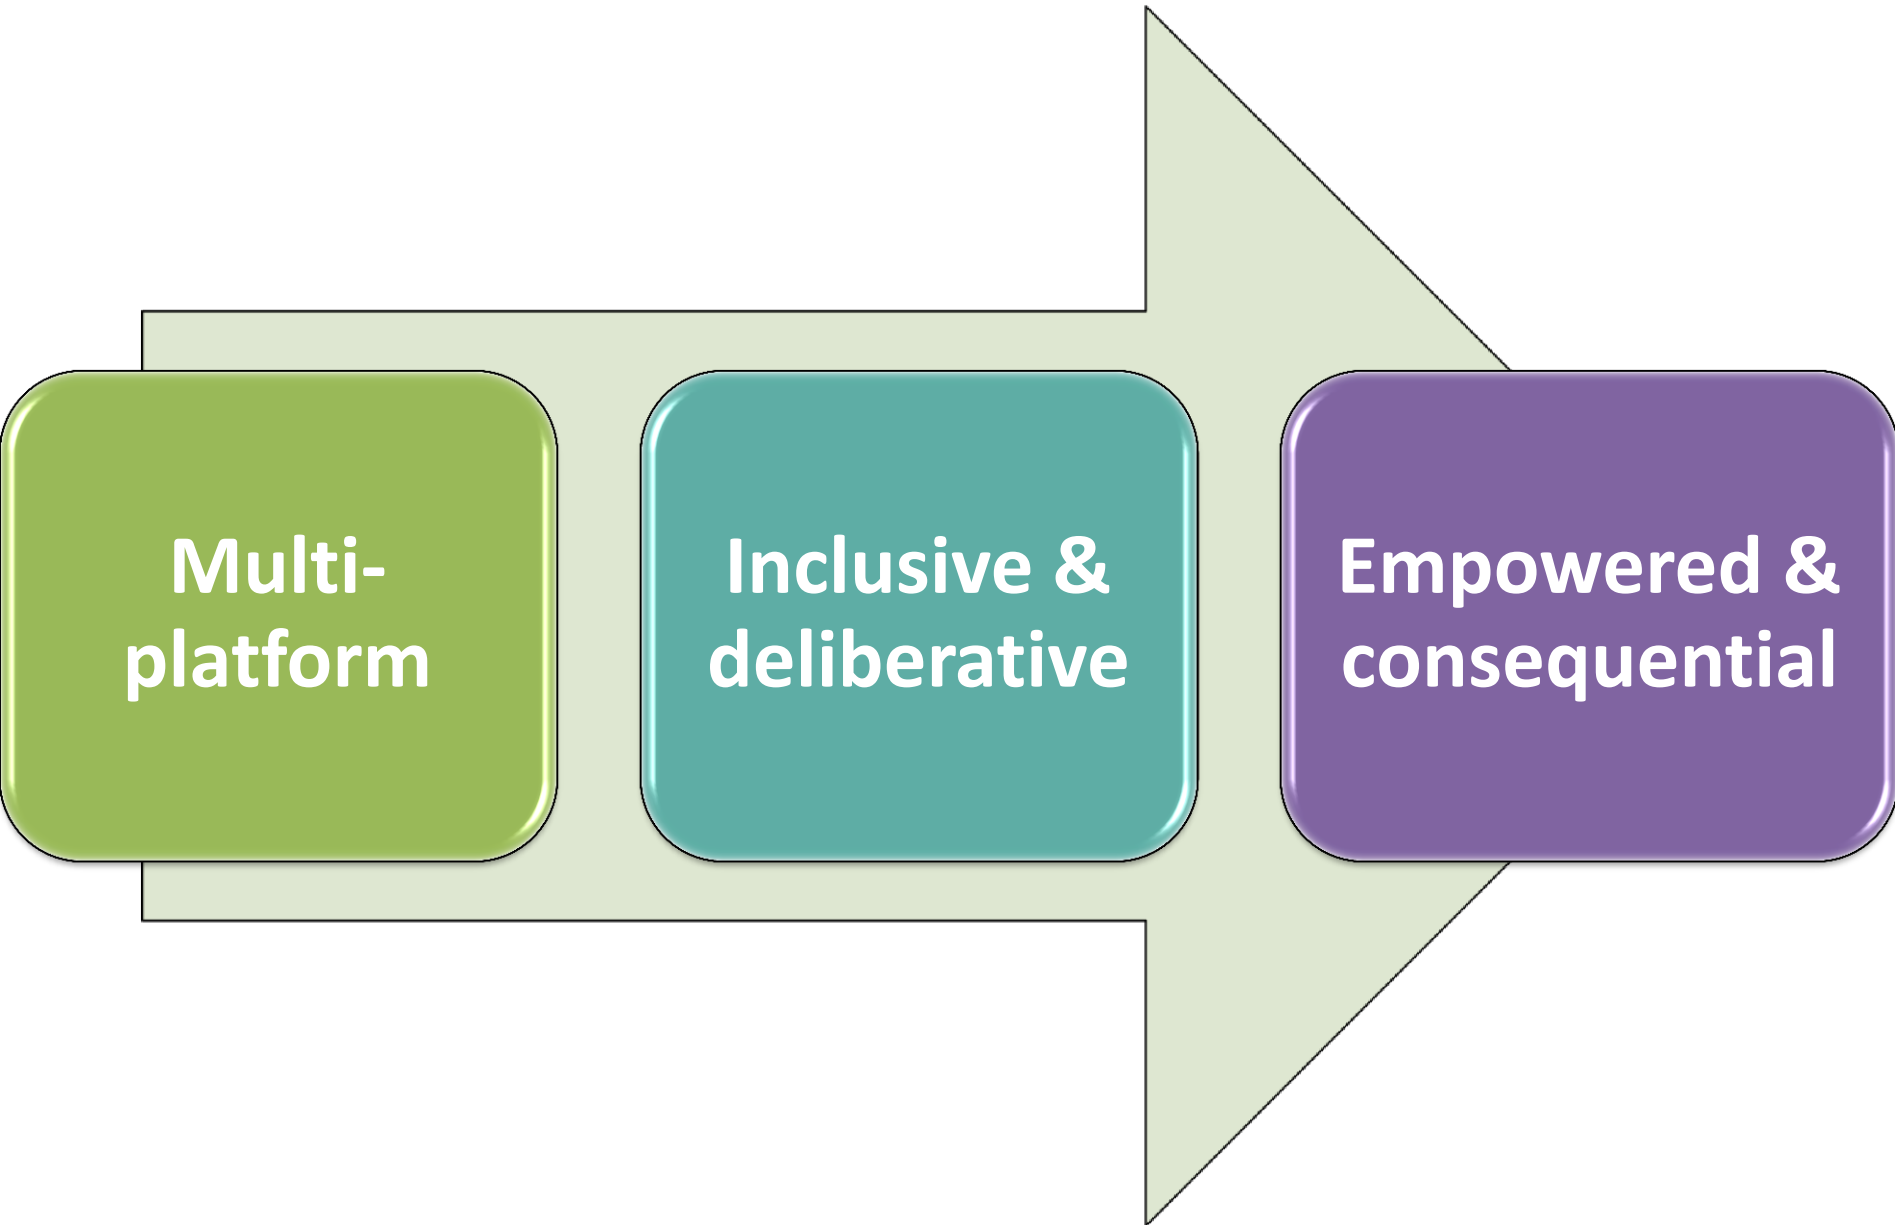

# Empowered and consequential

- Participation thrives when **important issues and resources** are at a stake, and citizens feel their contribution can actually make a difference
- **Example:**
  - Participatory Budgeting, from Porto Alegre (Brazil) to 2,700 localities around the world

# 3 components of 'what works' in community participation

## People involved in organising community participation must ask:

- Are we harnessing the power of combining online and face-to-face platforms for community participation and action?
- Are we creating opportunities that accommodate the variety of ways in which people may want to participate?
- Are we creating inclusive processes where everyone has an equal chance to participate and influence?
- Are we creating deliberative spaces where participants can learn, hear different views, and engage in dialogue to offer informed opinions and considered judgements?
- Are we fostering empowered processes, where people know that their participation can make a difference?

*strengthening community participation* will require

**democratic innovation**

and

**facilitative leadership:**

new approaches, processes and institutions that enable inclusive forms of co-production and decision-making

so that communities can  
participate not only in service  
design and delivery

but also in the decision-making  
processes that determine what  
services are to be delivered,  
how and by whom

critical optimism  
or energised pessimism...

both can be powerful  
motivators, so...

**whatever gets us into  
collective action!**

# Thank you!
