

Glasgow and West of Scotland Forum of Housing Associations

One of the key suggestions to come out of our 2017 'Succession Planning Report' was the idea of a mentoring service ***provided by members for members.***

A wee bit more information about the mentoring service –

- **Mentoring is a way of working with people to support and encourage their learning to maximise performance.**
- **The mentoring service is both voluntary and confidential and no costs or charges are involved.**
- **All mentors will receive a briefing about mentoring and will confirm what mentoring will involve with the person being mentored.**
- **Mentoring sessions will be arranged by mentors/mentees to suit what works best for both individuals.**
- **Both GWSF and EVH can provide support and guidance on the mentoring programme.**

We are delighted to say that we are now at the stage of launching the initial phase of the service and are looking for participants; both to provide mentoring (mentors) and to be mentored (mentees).

The service is open to both committee and staff members.

If you are a staff or committee member and your association is a GWSF member and you are interested in becoming a mentor or mentee please return the appropriate attached form – see below.

These should be returned to EVH who are administrating the service for us (contact details are on the forms).
